PROFESSIONAL SUMMARY

Front-End Developer with 1+ year of experience building responsive web applications using ReactJS, JavaScript, TypeScript, Tailwind CSS, and Material UI. Experienced in developing reusable UI components, integrating REST APIs, building data-driven dashboards, and implementing responsive user interfaces. Skilled in debugging, application testing, state management, and delivering maintainable front-end solutions.

WORK EXPERIENCE

TVM Signalling and Transportation Systems Private Limited

Jul 2025 - Present

Front-End Developer

Bangalore, Karnataka

- Developed 20+ reusable, responsive UI components using **ReactJS, JavaScript, HTML, CSS, Tailwind CSS, and Material UI**.
- Integrated REST APIs using Axios to retrieve and display application data across dashboards, tables, charts, and detailed views.
- Developed interactive **data visualization modules, heatmaps, and responsive dashboard interfaces** for monitoring application data.
- Implemented reusable components and responsive layouts to provide consistent user experiences across different screen sizes.
- Debugged and enhanced React-based application modules, resolving UI and functional issues and improving application reliability.
- Collaborated with the development team using **SVN** for source control and followed structured coding and review practices.

ZOHO Corporation Private Limited

Oct 2024 - Jan 2025

Project Trainee

Tirunelveli, Tamil Nadu

- Developed an **Active Directory dashboard application** using ReactJS and Tailwind CSS to monitor and display system information.
- Contributed to **agent-side development using C++** for collecting and processing system-level data.
- Implemented dashboard interfaces for monitoring **Active Directory components, logs, and system information**.
- Worked with **Linux and Windows Server 2019** environments for application deployment, testing, troubleshooting, and debugging.

EDUCATION

National Engineering College, Kovilpatti

Oct 2021 - Apr 2025

B. Tech - Information Technology (CGPA: 7.68)

Kovilpatti, Tamil Nadu

PROJECTS

[1] Raavana Thalaigal Trust Website

[ReactJS, ExpressJS, PostgreSQL, Tailwind CSS, Vercel, Render]

- Developed a responsive full-stack web application using **ReactJS and Tailwind CSS** for desktop and mobile users.
- Built reusable frontend components and integrated **RESTful APIs** for application workflows and data management.
- Integrated the application with **PostgreSQL** for efficient data storage, retrieval, and application data management.
- Configured frontend and backend deployment using **Vercel and Render**, including custom domain configuration.
- Used **Git** and **GitHub** for version control, source code management, and collaborative development.

[2] Predictor-M

[ReactJS, JavaScript, Tailwind CSS, Material UI]

- Developed interactive **ReactJS dashboard modules** for displaying application data through charts, tables, and visual components.
- Integrated backend APIs to retrieve and display dynamic data within the application.
- Built reusable UI components using **ReactJS, Tailwind CSS, and Material UI**.
- Implemented responsive layouts and performed debugging and feature enhancements to improve application usability.
- Maintained source code using **SVN** and followed structured development practices.

[3] GrantGo

[ReactJS, TypeScript, Tailwind CSS, shadcn/ui]

- Developed a responsive internal web application for **creating, tracking, and managing approval requests and tickets** across organizational workflows.
- Built reusable and maintainable UI components using **React, TypeScript, Tailwind CSS, and shadcn/ui**.
- Implemented application state management and workflow handling using **Zustand**.
- Developed responsive interfaces to provide a consistent user experience across different screen sizes.
- Used **SVN** for source control and **IIS** for application deployment.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML5, CSS3

Frontend: ReactJS, Tailwind CSS, Zustand, Axios, Next.js, shadcn/ui, Material UI

Backend: ExpressJS, PostgreSQL

Tools: Git, GitHub, SVN, Active Directory

Achievement: Solved 300+ problems in LeetCode
